

## Section 404 Permitting

**LOCATION:**

Floyd County, KY

**CLIENT:**

Laurel Mountain Resources LLC and Kentucky Transportation Cabinet

**TYPE OF PROJECT:**

Section 404 Permitting

This project included Section 404 Permitting with a dual purpose project. The project was designed to recover coal resources in a portion of Floyd County, Kentucky as well as facilitate construction of a portion of the Minnie-Harold Connector ( KY Route 680) currently in design by the Kentucky Transportation Cabinet. The Section 404 Individual Permit Application is currently pending with USACE. This project included all work necessary to compile the permit application including stream delineation, habitat assessment, benthic macroinvertebrate surveys, determination of impacts to jurisdictional water, design of compensatory mitigation, and preparation of the environmental assessment documents. The project proposes the construction of three fills, which are necessary for development of the roadway corridor.
