

Coal Fly Ash/Coarse Refuse Landfill

LOCATION:

Kentucky

CLIENT:

Costain Coal/Lodestar Energy

TYPE OF PROJECT:

Coal Flyash/Coarse Refuse Landfill

Tasks completed by Summit's environmental and mining teams included the preparation of environmental permits, MSHA impoundment plants, construction management and field surveying.

Designs, environmental permits and MSHA approvals were obtained for the construction of a fly ash disposal fill in conjunction with a coarse refuse impoundment. After approval the necessary construction management was provided for installation of the facilities.
